

November 13, 2007

It is my pleasure to recommend John Williamson. He is a strong, motivated student. Thoughtful and reflective, he is equipped to handle academic challenges and to envision the application of academic theories to the real world.

Mr. J. Williamson was a student in two of my classes, where he distinguished himself by the quality of his thinking and writing. He was an excellent student; in addition to being a polite person John is sensitive to the needs of others. He attends classes, does his homework, and performs well on examinations.

His thoughtfulness is expressed eloquently through excellent communications skills. John is an excellent writer and an articulate speaker.

I am pleased to give John Williamson my highest recommendation. Please do not hesitate to contact me with any questions.

Sincerely,

Victoria Schaufuss

Associate Professor

Software Engineering College
